## MEETING AGENDA

---

### **I. GEO Business**

**Overview / Update**  
**BOD Election (May-Jun)**  
**New Business**

### **II. Presentation**

Lowering the Cost of Compliance:  
Best Practices Approach to Governance, Risk, and Compliance Issues  
Brian O'Neil, Appssurance

### **III. Adjourn**

**Lowering the Cost of Compliance:  
Best Practices Approach to Governance, Risk, and Compliance Issues  
Brian O'Neil, Appssurance**

**Presentation Abstract**

This presentation will examine how corporations are using automated solutions to address GRC challenges and meet compliance needs. We will examine how customers are utilizing both application-centric and defense-in-depth approaches to protect data and control application access. In addition, we will also provide case studies with specific ROI metrics that customers have achieved by using Oracle GRC solutions.

**Presenter Bio  
Brian O'Neil – Appssurance**

Brian is the Founder and Managing Director of Appssurance, Inc., the leading provider of Oracle Governance, Risk and Compliance (GRC) solutions. Brian has nearly 13 years of experience dedicated to serving clients in the Oracle GRC space and specializes in providing GRC strategy as well as business process and internal control design services to global organizations.

Prior to Appssurance, Brian was in senior management within the Technology and Security Risk Services practice at Ernst & Young. Brian held many leadership positions during his tenure at Ernst & Young including leading the Firm's US and Global Oracle GRC service line, the Metro New York Area's ERP assurance practice and the Southeast Area's IT Risk Advisory Solutions practice. In addition, Brian was one of five members on E&Y's global ERP assurance leadership team and was responsible for the strategic direction and growth of the service line. Prior to Ernst & Young, Brian worked as an applications consultant for Oracle Corporation.

Brian holds dual Bachelor of Science degrees in Accounting and Management Information Systems from the University of South Florida. He has passed the CPA exam and is a Certified Information Systems Auditor (CISA). He is a member of the National, Florida and Atlanta Oracle Applications User Groups and a member of the Information Systems Audit and Control Association (ISACA).
